## PERSONAL STATEMENT

As a web developer with a background in communications and advertising, I am a strong driving force in the creation of dynamic and rich web portals. I have a strong focus in performance, scalability and reliability of development projects by providing long term solutions to front and back end web devlopment.

## Technical Skills

Node.js Express, JavaScript, jQuery, Github, MySQL, Firebase, HTML, CSS, Bootstrap, Media Queries, APIs, JSON, AJAX, Command Line, Computer Science Fundamentals, Adobe Illustrator, Adobe Photoshop, Adobe InDesign

## EXPERIENCE

### Pocket Sensei (New York, NY)
*Full Stack Developer*

• A web app that allows users to search for information on martial arts, watch video tutorials, while finding local gyms specializing in the specific searched martial art.

• I worked on a team, and I was responsible for Google Maps search functionality as well as the website layout using Materialize, Google Maps API, javascript, jQuery, CSS, and HTML5

https://github.com/esun0703/parralax

### Project [You]  (New York, NY)
*Operations Developer/Creative Director*

• Designed and developed website for rebranding (To Project You)
• Commissioned research to discover consumer insights used to inform advertising and brand strategy for rebranding, by analyzing secondary research to reveal consumer's attitudes, behaviors, and perceptions.

• Wrote two grants: Bank of America and  Discretionary Funding Grant

### Fueled (New York, NY)
*Digital Marketing Intern*

•  Analyzed changes in SEM searches for Fueled Website using Google Analytics, SEO Dashboard,  Buzzstream, which was disseminated in the weekly report

## Applications Built
